Become a franchisee for less than £12k Work for yourself, not by yourself, with a Snap-on franchise

Snap-on is the world's number one tool brand and it's also a great business opportunity! Take control of your destiny - for half the usual start-up costs - with our Jump Start package. You pay just £11,755 and we pay the rest. As a franchisee, you will own and run your own iconic showroom on wheels. We have over 400 franchisees who come from all walks of life - many are former technicians or mechanics.

- ▶ Full training and a lifetime of support
- ▶ Keep 100% of your profits
- ▶ Join a network of likeminded people
- ▶ Enjoy more freedom and flexibility

"I'd been a Snap-on customer for years and had always been interested in the franchise opportunity, but it was the promotional price that encouraged me to finally decide to just go for it."

Alex McNellan, franchisee

This is your opportunity to build a profitable business, doing what you love.
There's only one question really... What are you waiting for?

£12k offer available nationwide

For a limited time only - don't miss out!

OBD-II Break Out Box BPBOB

- Tests vehicle data link connector (DLC) for any abnormality such as shorting and reverse polarity at the pins before the diagnostic tool (scanner) is plugged into the DLC - this helps to prevent damage to your scan tool

£195.00 Excl. VAT

**3 PIN CONFIGURATIONS
ALLOW EASY TESTING OF
ALL THREE FUSE SIZES
WHEN USED WITH YOUR
MULTI-METER!**

Voltage Reference (VR) Probe BPVRPROBE

- Allows input voltage from 0.5V – 7V in 0.5V increments to be sent to a sensor or circuit
- Bypasses components and sends desired voltage back to ECU, allowing you to test for faulty components/sensors
- Suitable for use on 12 and 24V systems

Applications include:

- Accelerator pedal voltage up to 5V
- EGR signal voltage up to 5V
- Cam & crankshaft sensors
- MAP & MAF sensors
- Parking sensors
- Pressure, temp & TPS sensors

£150.00 Excl. VAT

EASILY TEST FOR FAULTY COMPONENTS AND SENSORS!

SUN EZ ADAS RECALIBRATION SYSTEM

INNOVATION. PRECISION. SPEED. SIMPLICITY.

Are you ready for a revolution in Advanced Driver Assistance Systems Recalibration?

Key features include*:

- Precision tools
- Sophisticated design
- Multi-position laser measurement
- Easy laser positioning guides
- Intuitive target adjustment
- Faster set-up times
- Small footprint and few components for ease of movement and storage
- Reduces risk of recalibration errors

MAXIMISE YOUR PROFIT!

By performing four-wheel alignment prior to ADAS recalibration

*Some exceptions may apply

V1200 ELITE

Fully Mobile Wheel Alignment System

- Installation, measurement, maintenance and service made easy — a compact design that requires little storage space even in front of the lift

V2200

Imaging Wheel Alignment System

- An intuitive interface, easy-to-use software and customisable workflows for advanced alignment service without the need for specialised training

V2400

Wireless Wheel Alignment System

- Unmatched accuracy and user-friendly features in a conventional design for one of the most advanced alignment systems on the market

V3400

Wireless Three-Camera Wheel Alignment System

- Precision and ease of use for the unbeatable accuracy that high-volume alignment shops and dealerships require
